## ► Collision Protective Steel Beams

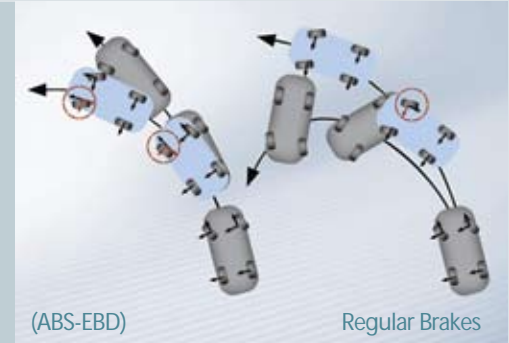

FRV continues to deliver more safety features with its front and rear doors that employ collision protective steel beams with inner reinforcements and an energy absorption structure. Strong B column and three transverse beam roof structures guarantee effective side collision protection.

## ► The latest Braking System (ABS-EBD)

FRV braking system comprises of ABS (Anti-lock brake system), EBD (electronic brake force distribution) all of which guarantee accurate control in the process of braking, steering and preventing accidental occurrences such as side slips. This system ensures higher levels of safety and outstanding performance.

## ► 1.5L Injection VVT Engine & 1.6L AT Injection Engine

Employing Toyota technologies Brilliance Auto has successfully developed its generation of the 1.5L engine with many technical advancements; one of which is the VVT technology with 16V DOHC, producing a 102 hp with low fuel consumption of 4.94L\* on a constant speed of 90km/h. It's no doubt that driving the FRV, with a 5 speed manual gear shift guarantees the feel of a powerful engine. Brilliance Auto also offers the FRV with a 1.6L injection Mitsubishi engine 4 cyl. 16V (Automatic / Steptronic transmission), that grants a powerful performance with a 101hp.

## Brilliance FRV

The Brilliance FRV belongs to the hatchback car family which is increasingly sought by young consumers and small families. The car is generously equipped with the latest technologies as well as various special features. It comes with a 1.5L, manual engine and a 1.6L Automatic Steptronic gear shift engine, in addition to the different recreational and comfort features like the high-performance air conditioning system, the central lock, and the front and rear cup holders. The car audio system comes with radio, CD and MP3 player.
